# Your Pension Statement explained

## Current employees of the Wilton section

1

### The Statement of Investment Principles (SIP)

details the policies which control how a pension scheme invests. Our SIP sets out the policy of the Dow Trustees on various matters governing decisions about the Plan's investments.

2

This section summarises your basic **personal details**. Let us know if you think any of the details we hold for you are wrong via the website [www.hartlinkonline.co.uk/mydowpension](http://www.hartlinkonline.co.uk/mydowpension)

3

**The annual allowance** is the amount of pension savings you can build up across all pension schemes in a tax year without incurring a tax charge. You can use the pension input amount shown in this section, along with the figures provided by any other schemes you are in, to help you see if you're exceeding the annual allowance with your pension savings.

4

**Tapered annual allowance** is lower than the standard annual allowance. This lower limit may apply to any member, based on their level of taxable income within the tax year. For the taper to apply, your taxable income for the year will need to be over £200,000.

5

This shows the benefit type your pension input amount is for. If you have other benefits elsewhere, including in the Aon master trust, you'll need to check those input amounts too if you think you might exceed the annual allowance.

[Opt Forfeit]

Dear

**Dow Services UK Pension Plan**  
**Pension Benefit Statement: 31 December 2021**

Welcome to Your 2021 Pension Benefit Statement.

This is your personal estimated statement of benefits provided for you as a member of the Dow Services UK Pension Plan.

It provides a record of the contributions that have been paid into your personal account, the investment funds in which your account is currently invested and an estimate of your likely benefits based on a series of assumptions between now and the date you retire. This statement contains information important to you and your dependant(s). Please share it with them since many of the benefits shown are provided for their security.

You will find more information about your benefits on the Plan's website [www.mylifepension.co.uk](http://www.mylifepension.co.uk) where you can also find the Annual Chair's Statement and Statement of Investment Principles including information on investment charges and transaction costs.

Every effort has been made to ensure the accuracy of this statement. However, it is not binding on the Trustees if there is an error. It is therefore essential that you check the details and inform Capital if you think that any of the information is incorrect.

**2 Personal Details**

Ni Number:	Membership Number:
Date of Birth:	Date Joined Company:
Date Service started:	Normal Retirement Date:
Pensionable Salary over the year to 31 December 2021:	
Regular Salary at 31 December 2021:	

**Current Benefits**

**3 Annual Allowance – your pension input amount for the 2021/2022 tax year.**

Last year, your money purchase contributions were switched from being paid into the Dow Services UK Pension Plan to be being paid into the ADN master trust. The below therefore only represents the pension input amount for your final salary / CARE benefit accrual.

To assess your total pension input amount you will need to add together all of your pension input amounts for all of your pension savings. If this amount exceeds £40,000 or, if applicable your tapered annual allowance you will need to assess whether or not you are liable for an annual allowance tax charge and should contact us to obtain a full pension savings statement.

The figures shown below are estimated.

**5**

Benefit Type	Pension Input Amount for 2021/22 Tax year
Final Salary / CARE accrual	

6

This page gives you a breakdown of the funds your pension pot is invested in and the number, price, and value of the units of these funds as at the date shown. For the latest details on your investments go to [www.mydowpension.co.uk](http://www.mydowpension.co.uk)

7

A **Target Retirement Fund** is an age-based retirement investment that automatically moves your savings across different funds as you approach retirement.

8

This shows how the funds you are invested in have affected your pension pot. This figure will change each year. If you'd like to make changes to your investment choices, you can find out how to do this in the '**Additional information**' section of your benefit statement.

9

This shows how much pension you could buy using your Money Purchase account at your Normal Retirement Age (NRA). Make sure you read the notes about the type of pension we've assumed you'll buy.

10

For the pension you have built up before 1 April 2014 there's a protected NRA of 65 (except for a small number of people with an earlier protected age of 60). For the pension you build up from 1 April 2014, your NRA is the same as your State Pension Age.

11

This section outlines the projected amount you will receive from your Defined Benefit pension at your NRA.

12

The **Lifetime Allowance** is the limit on how much you can build up in pension benefits over your lifetime without incurring a tax charge. As of April 2023, this tax charge was removed and the Lifetime Allowance will be fully abolished by April 2024.

### Money Purchase Investments

The value of your Account is based on the number of units you hold in each of your chosen investment funds and the current price of those units. For the year to 31 December 2021, this is summarised in the table below. (Any changes made to your choice of investments since 1 January 2020 are not shown however you can view your latest fund value on the Plan's website).

Investment Fund	Number of units at 31 December 2021	Unit Price at 31 December 2021	Value of units at 31 December 2021
<b>Total Fund Value at 31 December 2021</b>			

\*For details of your Target Retirement Fund, including unit prices, please visit the Plan's website.

**Money Purchase Account Balance**

Your Account Balance on 1 January 2021	
Investment Gain/Loss	
Your Account Balance on 31 December 2021	

Please note that the above does not include any RVCs held with Universal, Aviva or Friends Life.

### 9 Money Purchase Benefit at your Normal Retirement Age

Illustration of your Pension at your Normal Retirement Age	10	£25,670 per annum
Illustration of your Spouses Pension at your Normal Retirement Age (payable on your death)		£12,835 per annum

This illustration assumes future increases; please refer to the notes page provided for further information.

Please read the illustration in conjunction with the Note page overleaf. This illustration assumes that you are no longer contributing to the Dow Services UK Pension Plan in line with your date of leaving.

### 11 Defined Benefit Pension at your Normal Retirement Age

During the year, you have built up one pension unit of £1,238.24 (equal to 1.2% of your Pensionable Salary)

Your total post 2003 Defined Benefit pension at 31 December 2021 is £21,762.95 per annum  
In addition you have a pension of £2,296.74pa with effect from 1 April 2003 in respect of  
your previous scheme service.

Illustration of your Pension at your Normal Retirement Age	£35,748 per annum
Illustration of your Spouses Pension at your Normal Retirement Age (Spouses Pension is 50% of your pension payable on your death)	£17,874 per annum

### Total Pension at Retirement

The figures below summarise your total projected pension from both the Money Purchase and the Defined Benefit Sections including all transfers in from previous Dow Plans.

Illustration of your Pension at your Normal Retirement Age	£21,418 per annum
Illustration of your Spouse's Pension at your Normal Retirement Age payable to your death	£30,700 per annum

At retirement, you will have the option to select retirement benefits that best suit your personal circumstances. One option available to you is to use part of your retirement account to provide a

*Please read these illustrations in conjunction with the Notes page overleaf. This illustration assumes that you will continue to be an active member of the Dow Services Life Pension Plan until retirement.*

## 12 Lifetime Allowance\*\*

The total Lifetime Allowance represented by your Normal Retirement Age illustrations above for your money purchase and defined benefits is 114.47%.

<sup>a</sup>Please refer to the notes page overleaf for further information

Any personal information collected, processed or stored by the Plan is processed in compliance with all relevant data protection in force at the current time.

Please contact Capt. if you believe any of these details may be incorrect.

Please ensure you contact Capita should any of your personal details change

### 13 Other Benefits

#### At Retirement

**Pension Commencement Lump Sum Option:** at retirement you will have the option of taking some of your Plan benefit as a Pension Commencement Lump Sum. You will be given more information about the amount of Lump Sum you can take before you retire but as a guide, the Maximum Lump Sum will be broadly 25% of the value of your benefits.

**14** Note: if you take a Pension Commencement Lump Sum, your pension will be lower but it cannot be reduced below any Guaranteed Minimum Pension (GMP) if applicable – see notes page.

#### Death in Service

If you were to die in service, the Plan would provide the following benefits:-

- Lump Sum of 4 times your Regular Salary, plus the value of any AVCs you have paid.
- Spouse's pension of 25% of your Regular Salary.

Note: the spouse's pension is subject to a minimum of the pension which can be bought with your Account plus half the value of your Defined Benefit pension.

#### Accessing your Details On-line

As a member of the Plan you are able to access your personal record via a secure website. The website address is [www.bartlisleonline.co.uk/mydowpension](http://www.bartlisleonline.co.uk/mydowpension)

You will have to register for access on-line, where you will be asked to choose a Username and password as well as answer various questions to verify your identity. Following the registration process, you will be issued with a password and pin.

### 15 Making your Wishes Known

It is extremely important that you complete an Expression of Wish form and keep this form up to date if your circumstances change. This will ensure that the Trustees know whom you wish to receive the Death Benefits described within your statement. The Trustees must decide who receives the Lump Sum payment so that it can be paid tax free under current legislation. However they will be guided by your wishes. If you have not completed an Expression of Wish form, or would like to amend an existing form, please update via the Plan's website [www.bartlisleonline.co.uk/mydowpension](http://www.bartlisleonline.co.uk/mydowpension). New forms are also available from the Dow Pensions Team at Capita.

If any of your pension details are incorrect or you would like more information about the Dow Services UK Pension Plan, please contact:

### Your Money Purchase Annual Benefit Statement

Important update regarding current market volatility  
not a reliable indicator of expected performance each year in the future up until your retirement.

### 16 Notes regarding your Money Purchase Illustrations

The statement overview covers details of your Plan contributions and investments for the year, along with details of your benefits built up in the Plan. Your projected benefits on the accompanying Statement are for illustrative purposes only. They are NOT a promise or guarantee of the pension that you will receive when you retire. The actual benefits you receive may be higher or lower than those shown in your Statement.

Amongst other things, your final pension will depend on the following:

- Performance of the funds you invest in
- Your age when you retire
- Cost of buying a pension when you retire
- Your choice of benefits when you retire

Your Statement, which these Notes accompany, has been calculated in accordance with The Occupational and Personal Pension Schemes (Disclosure of Information) Amendment Regulations 2002 (SI 2002/1383) and Statutory Money Purchase Illustrations (SMP) Technical Memorandum 1 and was calculated using the following key long-term financial assumptions:

Investment Fund	Pre retirement investment growth rate (%pa)	Changes (%pa)
Balanced Index Fund	4.50	0.21
Global Growth Fund	5.10	0.72
Global Growth Fund (UK Focus)	5.10	0.56
Balanced Fund	4.10	0.51
Growth Index Fund	5.10	0.17
Fidelity Cash Pensions	-0.80	0.25
Fidelity Life Long Bond Class 1	0.10	0.33
Alliance & Bernstein	Varying from 1.10 to 5.05 depending on term to retirement	0.285

Retail Prices Index (inflation) 2.5% pa

### 18 For the purposes of your Statement, it is assumed that:

- Your pension will increase in payment each year by 2.5%
- A pension will be payable to your spouse upon your death in retirement at the rate of 50% of that payable to you. For the purposes of this illustration it is assumed that females are three years younger than their male partner.
- Your choice of investment funds remains the same until Normal Retirement Date (NRD).

The projections give an indication of the size of your account and the pension that this may provide based on a standard set of assumptions using Statutory Money Purchase Illustration prescribed by

Government which we are legally required to use in order to provide an illustration to you. The illustrated pension figures are with a spouse's pension. For those members who joined the Plan before January 2003, a proportion of your fund will have to be used to buy spouse's benefits under contracting-out regulations.

In line with Government requirements, the SMP illustration assumes that 4% of your Account at retirement is first used to meet the expenses of buying a pension.

The cost of buying of a pension is dependent on your age and assumes that the pension bought will include Limited Price Inflation (LPI) increases, which means that, once in payment, the pension (in excess of any Guaranteed Minimum Pension (GMP)) will be increased each year in line with the Retail Prices Index (RPI) up to a maximum, which is currently 5%.

### 19 Notes regarding your Defined Benefit Pension

- Your deferred pension accrued before 6 April 2009 will increase in line with the Consumer Prices Index (CPI), subject to a maximum of 5% per annum. Your deferred pension accrued after 5 April 2009 will increase in line with CPI, subject to a maximum of 2.5% per annum.
- Once in payment, any Defined Benefit pension accrued will increase in line with the relevant rates as stipulated in the applicable Scheme Rules.
- Any Court Order imposed upon these benefits will be enforced where applicable, but may not be reflected in the benefits shown overleaf.

#### Additional Information

- Remember to review your investment choices from time to time to ensure they reflect your circumstances. For guidance on your choices, see the pension website. If you wish to make a change to your investment choices, you can do this online through [www.bartlisleonline.co.uk/mydowpension](http://www.bartlisleonline.co.uk/mydowpension). Alternatively you can telephone the Dow Pension Team on 0114 289 3377.
- Her Majesty's Revenue and Customs (HMRC) imposes a limit on the value of the tax-privileged pension benefits you can receive. Your statement provides a valuation of your current fund value as a percentage of the Lifetime Allowance. There will be an additional tax charge on retirement if the member's benefits exceed the value of the Lifetime Allowance. The Lifetime allowance is currently £1,073,100.
- You should immediately notify the Dow Pension Team of any change in your marital status or your address, or if any of the details recorded on this statement are incorrect. You may change your address details online through [www.bartlisleonline.co.uk/mydowpension](http://www.bartlisleonline.co.uk/mydowpension).
- You may be able to take Pension Commencement Lump Sum at retirement, which will reduce your pension. Details of this option will be given to you shortly before you retire. You will not, however, be able to reduce your pension below the level of any GMP. The GMP is the minimum pension the Plan must provide for you (and your spouse on your death) for membership up to 5 April 1997 as part of the State Pension contracting out arrangements.
- Your benefits from the Plan will be paid in addition to any State Pension to which you may be entitled. For further information about your State pension please visit the Pension Service website at <https://www.thepension-service.gov.uk/statepension/forecast/default.aspx>.
- This statement does not include any Additional Voluntary Contributions (AVCs) invested with Equitable Life, Aviva or Prudential.

**13** The other benefits included with your pension are shown here, such as the option to take a lump sum when you come to retire and also what would happen if you were to die in service.

**14** When you come to retire there is a maximum amount that can be taken as a tax-free lump sum which is set by HMRC, it's currently 25% of the capital value of your pension.

**15** This section reminds you to fill out an Expression of Wish form, as well as keeping it up to date. It's important to do this as it will ensure that the Trustees know who should receive your death benefits if you were to die.

**16** This page provides additional details about how the figures in your statement are calculated.

**17** This is a measure of the average change in prices for consumers across the country over the last 12 months.

**18** This section outlines the assumptions we've made to produce your statement. It's important that you bear these in mind when looking at the illustration of what your Money Purchase account could get you at retirement. If you choose a different type of pension, you'll get a different monthly amount.

**19** This section provides additional information, including the importance of updating your details, how to find out more about your State Pension, and a reminder to review your investment choices.
